Personal Projects Highlights (All projects at <https://sniperplank.github.io/projects/>)

Personal Website (HTML, CSS, JavaScript)

<https://eilafaljundi.com/> | August 2022

- Utilize a third-party website to create the animated character and animate the environment with CSS to give the illusion of walking.

Project Deadlines (Full stack, React, Express, User Authentication, MongoDB)

<https://project-deadlines.vercel.app/> | September 2022

- Created the backend with express and set all the routes to the different projects.
- Created project models and connect to the database using mongoose.
- Built the frontend with React and connect it to the backend utilizing axios.

YouTube It Chrome Extension (JavaScript, HTML, CSS)

<https://github.com/Sniperplank/youtube-it-chrome-extension> | July 2022

- Used HTML and CSS to create and style the extension popup in the browser.
- Used JavaScript to perform the search and show the results on a new tab.

Work Experience

Shift Manager | McDonald's | July 2018 – Present
Mississauga, Ontario

- Ensure guests receive fast and friendly service during their visit.
- Schedule crew's breaks according to production demands and delegate tasks.
- Handle customer complaints and come up with effective solutions.
